Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Hawaiian standard time is 10 hours 20 minutes slower than Greenwich time, being that of the meridian of 157 degrees 20 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

U. S. Department of Agriculture, Weather Bureau.

The following data, covering a period of 30 years have been compiled from the Weather Bureau and McKibbin records at Honolulu, T. H. They are issued to show the conditions that have prevailed during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, May, for 30 years.
Temperature. (1890-1901 incl.)
Mean or normal temperature, 75 deg.
The warmest month was that of 1895, with an average of 76 deg.
The coldest month was that of 1902, with an average of 74 deg.
The highest temperature was 87 deg. on May 28, 1897.
The lowest temperature was 60 deg. on May 5 and 6, 1902.
Precipitation (rain 1877-1894, incl.)
Average for month, 2.33 inches.
Average number of days with .01 of an inch or more, 12.

The greatest monthly precipitation was 11.29 inches in 1885.
The least monthly precipitation was 0.23 inches in 1878.

The greatest amount of precipitation recorded in any 24 consecutive hours was 9.68 inches on May 10, 1885.
Clouds and Weather (1884-1904, incl.)
The prevailing winds have been from the northeast.

Station: Honolulu, T. H.
Date of issue: April 28, 1903.
ALEX. McC. ASHLEY,
Section Director, Weather Bureau.

ARRIVING.	DEPARTING.

Thomas, Mrs. Collis, Madame Triffet, Mrs. E. A. Kidd, Miss Rebecca Watt, Miss Yoel, Miss Juanita K. Berkeley.

HONOLULU.
Departing, May 18.—Am. schr. Defender, for San Francisco.

CHILDREN WHEN TEETHING.

This is the most dangerous age in the life of a child. At this time they have more or less diarrhoea, which weakens the system and renders the child more susceptible to disease. Any unusual looseness of the bowels should be promptly controlled, which can be done by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy, with an occasional dose of castor oil to cleanse the system. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

Honolulu, Hawaii

CHOOSE BOOTH FOR TREASURER

REMNANT OF OLD "FIGHTING SEVENTH" WILL PROBABLY BE UNANIMOUS FOR BROWN ALSO.

The Republican precinct club of the 7th of the Fifth met Wednesday night with Representative Mahelona in the chair, to discuss County candidates. While nearly every office was talked over in a preliminary way the club decided on only one endorsement at the meeting and that was for C. W. Booth for county treasurer. The absorbing topic of the candidacy for sheriff was within one of being settled in favor of Brown. As it seemed probable that the choice for Brown could be made unanimous at a later meeting, his friends readily consented to leave further discussion over for a few days. Representative Harris is not worrying over the chairmanship of the convention, no matter who else may be. "I do not think I have any cause to worry," he remarked this morning. "The rumors of strong opposition to my candidature for the gavel may be true, of course, but so far I have no idea who is going to oppose me. I do not think that Adams is in the fight."

MILLIONAIRES MAY COME.

Rumor has it that there will be an influx of wealthy men to Hawaii this summer. Among those who are mentioned as possible visitors are some of the Vanderbilts, Dr. Seward Webb, Knapp, the gas magnate, and Billings, the well-known horse owner. They will be in Southern California and Manager Gray of the Alexander Young Hotel hopes to secure their presence here.

NEW APPARATUS ON THE SOLACE

TRANSPORT WILL CARRY COMPLETE WIRELESS OUTFITS TO HONOLULU AND GUAM.

VALLEJO, May 11.—One of the most important items of the big cargo which the United States navy transport Solace will go out when she leaves Mare Island Navy Yard tomorrow afternoon en route to Manila will be the outfit for wireless telegraph stations at Honolulu and Guam. The apparatus, which has been constructed by the navy yard workmen, is the latest and most improved pattern. Lieutenant George W. Sweet and a crew of operators for the new stations will go out on the Solace and erect the plants. Lieutenant Sweet formerly had charge of the Mare Island wireless station, leaving here a year ago to superintend the establishment of wireless stations in the Philippines. The Solace and the Lawton will remain at San Francisco until Monday afternoon at 4 o'clock, when they will sail to the Orient together.

WIRELESS FROM FROM HAWAII

IT LOOKS AS THOUGH THE GOVERNMENT WILL ARRANGE THIS MEANS OF COMMUNICATION.

WASHINGTON, May 6.—Perhaps it will be possible after all to establish wireless communication between San Francisco and Hawaii, in a long-distance step across the Pacific. There are physical characteristics at Honolulu which experts expected would interfere somewhat with the development of the system, but the Bureau of Equipment is in receipt of two offers to construct the stations which will accomplish the desired results and effect an exchange of messages through a distance of 2699 miles.

One offer comes from the Marconi people and the other from those representing the Telefunken system. The Marconi company is adhering to its former stipulation, that its system will not be used in exchanging messages with stations equipped with rival apparatus. This is objectionable, because, no matter what achievement is possible with the Marconi installation, it would not do to tie up the Government facilities of communication in any such exclusive manner.

SILK CULTURE PROMISES WELL

THOUSANDS OF SILK WORMS HAVE BEEN HATCHED OUT AT U. S. EXPERIMENTAL STATION.

Entomologist Van Dine of the U. S. Experimental Station at Tantalus has some twenty thousand silk worms on hand, the result of three week's breeding from eggs brought from Japan and from the department at Washington. The department eggs were much more vigorous, freer from disease and produced a better quality of cocoons than those coming direct from Japan.

Van Dine has a large number of cocoons reeled and graded awaiting an opinion as to their quality and value. He has kept a careful record of the amount of food they have eaten during the experiment and the length of time they took to grow.

When the whole experiment is completed a report for distribution will be printed by the station. This report will contain data concerning the quality of the silk, what the silk worms are worth, and what they would bring in the market.

Van Dine says the cultivation of silk worms is a pastime that could be taken up by any one, especially by large families, for the women and children could assist largely in the work. The industry could be taken up as a side issue. The Experiment Station staff may be consulted as to the hatching of the eggs and distribution.

THE FUNA SALE.

Judge De Bolt has set Monday morning for hearing a motion of the Puna Sugar Co. and its bondholders to postpone the sale of the company's property, now advertised for tomorrow. B. F. Dillingham made affidavit that he owns and represents \$445,000 out of the \$500,000 of the bonds. He relates the efforts to effect a disposition of the property without ruinous sacrifice and says that a postponement of at least seven days from May 29 is requisite.

THE WASHINGTON DECISION.

A mandate of the Supreme Court of the United States has been filed, affirming the decision of the Supreme Court of Hawaii which denied a writ of prohibition against Judge Gear in the Parker guardianship case. It orders that Judge Gear and J. S. Low recover against Alfred W. Carter \$29 costs.

AN INFERENCE.

"Bliggins' youngest must be very ill behaved," said one woman. "What makes you think so?" said the other. "Because his mother is constantly saying that he takes after the father."

Star Want Ads pay 25 cents.
